Foundation in Aviation, Travel & Tourism

Sessions include exploring a real Boeing 737 Aircraft PLUS Cockpit access

Designed & executed by our expert Aviation Courses Trainers, Aircraft Engineer & Quality-Safety Specialist, for anyone with a passion for Travel. This once-in-a-lifetime opportunity is for all young learners to gain invaluable career insights & guidance. All participants young and old will discover all the lesser known 'behind-the-scenes' action.

Course Objectives

'Must-Do' for anyone with passion for Aviation, Airlines, Airports, Travel & Tourism. Become wiser & smarter the next time you book your holiday, travel thru an Airport or Board an Aircraft. You will now observe things you never knew existed & enjoy your journeys more than ever before. Visit our hangar, with access to all sections of a real Boeing 737 Aircraft, including the Cockpit. Participants will sit on the Captain's seat inside the Cockpit and feel the instruments on the Flight Deck. Includes a guided tour walk-around the undercarriage, inside the Landing Gear & Cargo compartments. Interesting theory lessons cover many other important aspects.

Next Steps

- Go for our professional IATA Certificate & Diploma Courses.
- Invest in yourself. Learn the right skills & specialization required to be employed in the exciting Aviation, Airports & Travel Industries. Jet off to exotic destinations as part of your work.

Don't forget your Cameras !
